Arkansas Heart Hospital

case study

OBJECTIVES

- Create stunning zen interior, inspired by client's vision of high-end hotel aesthetic and holistic healing theory.
- Curate sophisticated, statement-making furniture in luxurious, high-performance fabrics for health care, and ensure that furniture is scaled and rated for bariatric patients and visitors.
- Coordinate a palette of finishes across vendor lines, and document with detailed project standards for continuity of procurement in future phases.

OUTCOME

This refined interior invokes the uplifting care philosophies woven into its world-class clinical environment. Kimiko's intuitive resourcefulness, industry expertise and flawless execution of details resulted in a superb space that nurtures mental and physical wellbeing, in this healthcare destination of choice.
