Edinburg, TX

services

- furniture planning
- technical specifications
- installation oversight

notable

- furniture delivered on time and came in under its nearly \$1M budget

University of Texas Rio Grande Valley

case study

“The kimiko team demonstrated expertise in every service they performed for us. They understood our goals and priorities.”

D NEITEK CARRUTH
PROJECT MANAGER,
FF&E UT

CHALLENGES AND SOLUTIONS

- Flawlessly coordinate deep South Texas project with UT leadership, multiple vendors, and large multidisciplinary team—remotely.
- Perform bolder, better, faster furniture planning and technical specification early in the project timeline to head off errors and protect the schedule and budget.
- Win confidence of campus project managers with non-stop oversight of every step in the process and seamlessly handle all issues on their behalf with experience, knowledge, and skill.
- Communicate team updates with a can-do manner to shield client from frenetic activity and stress that can come with a large furniture project.

OUTCOME

UTRGV’s new Interdisciplinary Engineering and Academic Building tells a highly successful—and uneventful—furniture project story. Kimiko designs made the complex undertaking “look easy” through detailed coordination and proactive communication.
